

Endless turns

Over the past decade this supremely capable motorcycle has given thousands of owners the opportunity to experience supersport-level performance with outstanding comfort.

Everything about this Sport Touring model is designed to cover significant distances in record time. With its 6-speed transmission and A&S clutch, the 1,298cc 4-cylinder engine delivers forceful acceleration and outstanding high speed cruising performance at the twist of your wrist.

Featuring a 25-litre fuel tank and aerodynamic fairing with electronically adjustable screen - as well as cruise control and adjustable riding position - the latest FJR1300A gets you there like nothing else.

- ▶ Smooth 1,298cc inline 4-cylinder engine with YCC-T
- ▶ Sportsbike-type aluminium frame for agile handling
- ▶ Dynamic acceleration from 6-speed transmission
- ▶ Assist and slipper clutch for smooth downshifting
- ▶ LED headlights, position lights and taillights
- ▶ Fully-adjustable screen, cowl, seat and handlebars
- ▶ Yamaha D-MODE for softer or hardcore power
- ▶ Easy-to-operate cruise control system
- ▶ Switchable Traction Control System (TCS)
- ▶ Large 25-litre fuel tank for extended riding range
- ▶ Heated grips and 12v socket as standard
- ▶ Clean and quiet-running shaft drive system

Beyond Touring

Prepare yourself for a whole new experience. Because you will soon discover that this sporty, sophisticated sport tourer is much more than the sum of its high-tech components.

With FJR1300A ownership comes a different outlook on life. Distance will no longer be a barrier. And those journeys you thought you would never make will now become reality.

Built to cover 1000km or more each day, this remarkable motorcycle opens up a world of possibilities for you and your partner. Combining sports performance with long-distance luxury, and featuring a fully-loaded standard specification, this motorcycle is ready to take you to special places.

6-speed transmission with A&S clutch

The FJR1300A is equipped with a 6-speed transmission that enables the rider to make optimal use of the massive reserves of torque for rapid acceleration - while the high 6th gear gives lower rpm at high cruising speeds. And for smoother downshifting and enjoyable cornering, an Assist and Slipper (A&S) clutch is fitted.

High-performance 1,298cc inline 4-cylinder engine

Featuring a Yamaha Chip Controlled Throttle (YCC-T) for smooth power delivery, the dynamic inline 4-cylinder powerplant delivers outstanding sports performance. Its high torque output makes for strong acceleration in all 6 gears - and the impressive top end enables you to cover substantial distances without trying too hard.

LED headlights and taillight

The twin-eye headlights are equipped with four compact and powerful LED lighting units - with two operating for low beam and all four come on for high beam. LED position lights give the FJR1300A an unmistakable presence on the highway - and the rear design features an all-LED taillight assembly that underlines the FJR's high-tech specification.

Sophisticated 3-part instrumentation

To complement its sophisticated sport tourer specification, the FJR1300A is equipped with a high-specification 3-part instrument panel. This high-tech console features an R1-style analogue tachometer on the left with a central digital LCD speedometer and a multi-function dot matrix display on the right.

Fully-adjustable ergonomics for added comfort

For maximum riding pleasure the FJR1300A is designed to allow easy adjustments to the riding position and aerodynamics. The seat height and handlebar position can be fine-tuned to suit different riding styles - and there's also an electrically adjustable screen and an air management system for added wind protection.

Advanced electronic control systems

The FJR1300A is equipped with some of the industry's most advanced electronic control systems. A switchable traction control system (TCS) gives added confidence by preventing the rear wheel from spinning when activated, while the Yamaha D-Mode system offers the choice of relaxed or sporty engine settings.

<i>Engine</i>	<i>FJR1300A</i>
Engine type	4-stroke, liquid-cooled, forward-inclined parallel 4-cylinder, DOHC, 4-valves
Displacement	1,298cc
Bore x stroke	79.0 mm x 66.2 mm
Compression ratio	10.8 : 1
Maximum power	107.5 kW (146.2PS) @ 8,000 rpm
Maximum Torque	138.0 Nm (14.1 kg-m) @ 7,000 rpm
Lubrication system	Wet sump
Clutch Type	Wet, multiple-disc coil spring
Carburettor	Fuel Injection
Ignition system	TCI
Starter system	Electric
Transmission system	Constant Mesh, 6-speed
Final transmission	Shaft
Fuel consumption	6.2 l/100km
CO2 emission	140 g/km

<i>Chassis</i>	<i>FJR1300A</i>
Frame	Aluminium, Diamond Shaped
Front travel	135 mm
Caster Angle	26°
Trail	109 mm
Front suspension system	Telescopic forks, Ø 48 mm
Rear suspension system	Swingarm, (Link type suspension)
Rear Travel	125 mm
Front brake	Hydraulic dual disc, Ø 320 mm
Rear brake	Hydraulic single disc, Ø 282 mm
Front tyre	120/70 ZR17M/C (58W)
Rear tyre	180/55 ZR17M/C (73W)

<i>Dimensions</i>	<i>FJR1300A</i>
Overall length	2,230 mm
Overall width	750 mm
Overall height	1,325/1,455 mm
Seat height	805/825 mm
Wheel base	1,545 mm
Minimum ground clearance	130 mm
Wet weight (including full oil and fuel tank)	289 kg
Fuel tank capacity	25 litres
Oil tank capacity	4.9 litres
