

## ***Ultimate lightweight portable electricity.***

Quiet, durable and convenient, the Yamaha EF1000iS is designed for anyone seeking an ultra-portable source of electricity. It combines compact proportions with an impressive maximum operating time of 12 hours\*.

Ideal for camping trips and outdoor events, the EF1000iS can be used to power a range of appliances - from radios and TVs to coffee makers. It also has a 12V outlet for battery charging.

The inverter system with pulse width modulation produces higher-quality, cleaner electricity, and sound absorbing materials keep the volume down. Combined with the easy to use single-sided control panel, it makes for a quiet and convenient power source. \*at 1/4 rated load E-Control on.

- ▶ Lightest weight in its class
- ▶ Compact design
- ▶ High quality electricity
- ▶ Quiet operation
- ▶ 12hr operation (1/4 rated load Economy Control on)
- ▶ 4-stroke, air-cooled 50cc engine
- ▶ Exclusive dual coil alternator stator
- ▶ Centralized control panel

## ***Tomorrow's Power Today***

Yamaha generators are full of state-of-the-art technology that not only guarantees high-level performance, but also makes them outstanding in operation, economy and durability.

Our range of generators provides customers with the most compact, reliable and efficient portable power sources for use on camp sites, boats, small outdoor vending stands, to power small home electric equipment or to supply back-up power in case of power failure.

These and many other aspects of Yamaha engineering provide the unmatched durability expected by users throughout the world for carefree power generation.

**Inverter system with Pulse Width Modulation**

This industry-leading system produces high-quality, clean electricity. Its pure sine wave is as clean as or cleaner than commercial power, making it suitable for products with built in microcomputers

**Noise Block™ acoustically designed sound reduction system**

The full generator enclosure uses sound absorbing material in key internal locations. This design, combined with a newly designed muffler and molded fan, ensures unbeatable noise reduction.

**Smart Throttle™ load-sensing throttle control**

This intelligent system automatically adjusts engine speed to precisely match load - resulting in greater fuel efficiency and noise reduction.

**Dual coil alternator stator**

By lowering engine speed, this exclusive technology produces a number of benefits including reduced noise, fuel consumption and engine wear.

<i>Engine</i>	
Displacement	50cc
Maximum power output	1.61 kW / 6,500 rpm
Starting system	Recoil

<i>Generator</i>	
Generator type	Inverter-Silent
Frequency	50 hz
Rated AC output	900 VA
Max AC output	1,000 VA
Voltage AC	230 V
Rated current	3.9 A
DC output	12 / 8 V/A
Power factor	1
Phases	Single
Starter	Direct
Operating hours without refill	4.0 - 12.0* (*Economy Control on)

<i>Dimensions</i>	
Overall length	450 mm
Overall width	240 mm
Overall height	380 mm
Weight (kg)	13 kg
Oil tank capacity	0.32 litre
Fuel tank capacity	2.5 litres
Noise level (LWA)	88.0 dB (A)
Noise level 7 m	47.0* - 57.0 dB (A) (*Economy Control on)

### Only the best will do

We like to think you get out what you put in, which is why we recommend genuine Yamaha Parts and Accessories. The same innovation and stringent quality controls behind our world-leading generators go into all our parts and accessories – from exclusive YAMALUBE engine oil to cooler bags and clothing. On selected generator models optional accessory kits to assist manoeuvrability and parallel operation cables for simultaneous multiple generator use are available. Yamaha also has a wide range of functional yet stylish apparel and useful bags. See your approved Yamaha dealer for more details.
