

Thrill your dark side

Built to deliver more action and emotion, the Yamaha MT-07 has set the middleweight class alight with its torque-rich engine and highly agile chassis.

Now we're pushing this winning concept to the next level with the radically styled MT-07 Moto Cage - a cool new stunt-inspired bike that brings an even more edgy look to the street.

Equipped with a bright red tubular cage wrapped around the bike's centre section for extra protection, this urban stunter means business. Contrasting wheel colours and attention-seeking graphics underline its rebellious streak - and the bad-boy look is reinforced with an adjustable headlight mask and a range of special bright red chassis parts.

- ▶ Liquid-cooled 689cc inline 2-cylinder 4-stroke
- ▶ Deep and powerful linear torque output
- ▶ Special protective tubular cage
- ▶ Adjustable headlight mask
- ▶ Cool new tank and body graphics
- ▶ Stunt image with exclusive chassis components
- ▶ Low dry weight of only 164kg
- ▶ Agile, manoeuvrable and easy to handle
- ▶ Mass-forward design with sculpted bodywork
- ▶ Light 10-spoke wheels with contrasting colours
- ▶ Digital instrumentation with full LED display
- ▶ Dual 282mm front discs with 4-pot calipers

Unleash the torque

Just about everyone who rides the MT-07 is thrilled by this game-changing model's torque-rich performance and lightweight agility. But this is only the beginning.

Now the extreme new MT-07 Moto Cage is here - and with its unique stunt-inspired components and urban-proof design, this is the bike that dares to be different.

From its bright red tubular cage through to the different coloured wheels and aggressively styled adjustable front light mask, the Moto Cage refuses to conform. Equipped with a special engine underguard as well as lightweight hand protectors and a special passenger seat, the MT-07 Moto Cage is ready to lead, not follow.

Rugged stunt-inspired tubular cage

What makes this new stunt-inspired bike really stand out in any crowd is the tough new tubular cage that's wrapped around the bike's centre section. Finished in brilliant red, this lightweight structure gives added protection and gives the new MT-07 Moto Cage a rugged and rebellious urban look.

Urban proof

With its stunt-inspired looks and extensive range of special parts, the Moto Cage takes the MT-07 concept into new territory. Finished in bright red, its exclusive radiator guards and a tough underguard help protect the engine - while lightweight knuckle guards as well as cool new graphics and a designer passenger seat underline its streetwise image.

Red and black 10-spoke alloy wheels

Finished in contrasting colours that accentuate its unique image, the lightweight 10-spoke wheels contribute towards the MT-07 Moto Cage's outstanding agility. The red coloured front wheel is fitted with a 120/70ZR17 - while the black coloured rear wheel runs with a wide 180/55ZR17 tyre for optimum grip and precise control.

Adjustable headlight mask

Aimed right at younger riders, the Moto Cage is equipped with an aggressively styled headlight mask that can be easily adjusted up or down. The red tubular chassis-mounted cage is complemented by bright red relief stickers on the tank and body, and the extrovert image is sure to get this radical stunt-inspired motorcycle noticed wherever you go.

Torque-rich 689cc inline 2-cylinder engine

What gives the new MT-07 Moto Cage such a special character is its gutsy 689cc inline 2-cylinder engine. With an uneven firing interval, the 270-degree crank gives a strong feeling of acceleration and great traction - as well as a throaty exhaust note - and the deep linear torque ensures thrilling performance.

Light & slim tubular backbone frame

For easy maneuverability and remarkable agility - especially in urban settings - the new MT-07 Moto Cage runs with a light & slim steel backbone-type frame that utilizes the twin cylinder engine as a stressed member. Combined with a compact wheelbase and plush suspension, this strong and light chassis gives a responsive and engaging ride.

Engine	
Engine type	2-Cylinder, liquid-cooled, 4-stroke, DOHC, 4-valves
Displacement	689 cm ³
Bore x stroke	80.0 mm x 68.6 mm
Compression ratio	11.5 : 1
Maximum power	55.0 kW (74.8PS) @ 9,000 rpm
Limited power version	35.0 kW
Maximum Torque	68.0 Nm (6.9 kg-m) @ 6,500 rpm
Lubrication system	Wet sump
Clutch Type	Wet, Multiple Disc
Carburettor	Fuel Injection
Ignition system	TCI
Starter system	Electric
Transmission system	Constant Mesh, 6-speed
Final transmission	Chain

Chassis	
Frame	Diamond
Front suspension system	Telescopic forks
Front travel	130 mm
Caster Angle	24° 50
Trail	90 mm
Rear suspension system	Swingarm, (Link type suspension)
Rear Travel	130 mm
Front brake	Hydraulic dual disc, Ø 282 mm
Rear brake	Hydraulic single disc, Ø 245 mm
Front tyre	120/70 ZR 17M/C(58W) (Tubeless)
Rear tyre	180/55 ZR 17M/C(73W) (Tubeless)

Dimensions	
Overall length	2,085 mm
Overall width	745 mm
Overall height	1,090 mm
Seat height	805 mm
Wheel base	1,400 mm
Minimum ground clearance	140 mm
Wet weight (including full oil and fuel tank)	- kg kg
Fuel tank capacity	14 L
