

When it's steep and deep, here's your best friend.

No doubt about it, when you're tackling the steepest mountains and the deepest snow, this is the friend you can trust to take you there and get you back - with power, control, comfort and lots of fun.

This special longer track version of the SRViper M-TX was born to take you even higher! Its fuel-injected Genesis® High Output engine delivering exhilarating power and torque, teams up with the 2.6"/66mm Camoplast® Power Claw track, adjustable suspension and FOX® FLOAT® shocks front and rear to give you great control - and comfort too.

Rely on the SRViper M-TX 162 SE for other advantages too, like full Mountain ergonomics, reverse, electric start and hand/thumb warmers.

- ▶ Genesis® 4-stroke 1049cc High Output engine
- ▶ Advanced fuel injection system for explosive power
- ▶ Massive low end torque for control in deep snow
- ▶ Slim and lightweight Mountain chassis
- ▶ SRV-M front suspension with FOX® FLOAT® 3 shocks
- ▶ Wide, single-keel Mountain skis
- ▶ SR 162 rear suspension with FOX® FLOAT® 2 shocks
- ▶ 2.6 inch/66mm Camoplast® Power Claw lug track
- ▶ Dual-switch grip control for hand & thumb warmers
- ▶ Convenient electric start and push-button reverse
- ▶ Dual digital gauges and sleek, low windshield
- ▶ New eye-catching graphics and striking colours

***Whenever, wherever
the snow falls, team
up with your Yamaha.***

Being out on the trails or powder is one of life's great feelings – creating emotional moments to last long in the memory. So enjoy our snowmobiles. Each one is designed and equipped to deliver supreme handling, performance, comfort, economy and reliability.

It's a winning combination you can depend on from your Yamaha – along with our innovative engineering and electronic control technologies that bring you and your machine closer together as a unit – to create a more satisfying riding experience than ever before.

So wherever you ride – on smooth or rough trails, soft powder or up at high altitudes – choose the perfect partner. Your Yamaha.

Genesis 4-stroke 1049cc High Output engine

While this dynamic powerplant delivers massive low-end power and torque, its lightweight crank and advanced fuel injection system also deliver instant throttle response across the RPM band. Adding to its capability are features like the oil pressure sensing system and the remarkable Engine Braking Reduction System (E.B.R.S.).

All-new chassis - low weight with high strength

Our latest chassis, specially developed for the SRViper Mountain series, features aluminium construction with a load-bearing, triangulated design that helps keep weight low and strength high. The result is razor-sharp agility and a superbly balanced ride, with the dynamics to complement a huge variety of riding styles.

A riding position tuned to the mountains

The short, high seat, tapered towards the front, works together with the tall riser handlebar position - with mountain strap - to give you great comfort and control over the agile chassis. Easy counter steering on steep sidehills comes naturally too, thanks to the handlebar's flat turning arc provided by the vertical steering post.

Independent double wishbone front suspension

An outstanding characteristic of all our new SRViper models is the unique suspension design and ski geometry. For the front of the M-TX 162 SE we've chosen FOX® FLOAT® 3 shocks, which deliver ultra-responsive handling - yet with the strength to handle the demands of the steepest mountainsides - this machine's natural habitat.

Dual Shock SR 162 rear suspension

The SRViper M-TX gives you an impressive range of easily adjustable pressure and tuning options, thanks to its FOX® FLOAT® 2 and aluminium HPG shocks. What's more, the special springless suspension developed for these models has been designed to reduce the amount (and weight) of built-up snow, to give you better stability and control.

Camoplast® Power Claw 2.6"/66mm track

A stunning performer in all conditions, the Camoplast® Power Claw track chosen for our M-TX SRVipers features 2.6 inch (66 mm) lugs. The track is driven by extrovert drive sprockets which mesh precisely with holes in the track, acting like a gear mechanism to deliver outstanding levels of grip and propulsion, particularly in deep snow.

Engine	
Type / Displacement	4 Stroke / 1,049cc
Cylinders	3-Cylinder
Cooling	liquid-cooled
Bore x stroke	82.0 mm x 66.2 mm
Carburation	41 mm Mikuni x 3, Fuel Injection, Liquid Heated
Intake design	2-valves
Ignition system	Digital T.C.I. w/T.P.S.
Exhaust	2-valves, Rear Exhaust
Clutch / transmission	YVXC, Variable Ratio, Electronic Shift Reverse, Magnesium Chaincase & Cover
Disc brake system	Radial Master Cylinder Hydraulic Brake / Disc on Drive Shaft

Suspension	
Front suspension system	SRV-M
Front shocks	FOX® FLOAT® 3
Front travel	229 mm
Rear suspension system	Dual Shock SR 162
Rear shocks	C43 R13 aluminium HPG / FOX® FLOAT® 2
Rear Travel	419 mm

Measures / Dimensions	
Overall height	1,260 mm
Overall length	3,380 mm
Overall width	1,230 mm
Track W x L x H	15 inch x 162 inch x 2.6 inch, 381 mm x 4,115 mm x 66 mm
Track Type	Camoplast Power Claw 2,6"
Ski stance (ctr. to ctr.)	965 - 991 mm adjustable
Fuel tank capacity	37.0 litres

Features	
Electric start	Standard
Reverse	Standard
Hand & thumb warmers	Standard
Headlight watts, type	60/55W H4 Halogen
DC output	Standard

Snowmobiles are built to operate within their design limits. For durability, reliability, but most important of all, operator safety, under no circumstances should the recommended capacities identified in the owner's manual be exceeded. Consult your snowmobile dealer when selecting a snowmobile for your particular needs.

Always wear a helmet, eye protection and protective clothing. Always ride responsibly and within your limitations, respecting the environment as well as country and local laws. The riders depicted are professionals: don't attempt to emulate them. The specifications, measurements and appearance of Yamaha products will be varied from time to time without notice, and as shown here are illustrative only and are not a contractual description of products. Some models are shown with optional accessories.
